Apex is a family-owned business located in rural Minnesota. We are an honest, hardworking team of people with strong Midwestern values.

We take pride in our motto:
 1st to Quote.
 1st to Deliver.
 1st in Customer Service.

OUR GOAL: To massively impact your company by saving you time and money.

CUSTOMERS WE WORK WITH

BOILERS, STEAM, & CONDENSATE

Boilers and steam systems are at the heart of what you do. They are a critical utility which needs to be professionally designed to optimize your energy consumption.

In today's world, energy efficiency and environmental impact with carbon emissions are topics that cannot be ignored. Trust Apex to help you maximize your energy efficiency with the industry's best products. Our technical sales engineers will help you size, select, and specify the right equipment the first time.

Boiler, Steam, & Condensate Applications:

- Boiler Rooms
- Hospitals
- Breweries
- Distilleries
- Laundry Facilities
- Chemical Processing
- Textile Manufacturing
- Food Processing
- Beverage Processing
- Universities & Schools

Boilers
Firetube Boilers
Steam Generators

Heat Exchangers
Plate & Frame Heat Exchangers
Shell & Tube Heat Exchangers

Hot Water Heaters
Heat Misers

DA And Surge Tanks

Steam & Water Coils

Electric Condensate Pumps

Economizers

PRVs
Pressure Reducing Valves

Steam Traps
Steam Trap Audits

Pressure Motive Condensate Pumps

Safety Valves

Liquid Drainers

Control Valves

Actuated Valves

Instrumentation
Flow, Pressure, Temperature,
& Level Measurement

Process Controllers

FLOW, PRESSURE, AIR, TEMPERATURE, AND LEVEL INSTRUMENTATION

Instruments are your plant's way of capturing data. You can't manage what you don't measure! Apex carries only quality instrumentation from today's leading brands bringing you reliability and accuracy.

Instrumentation is used to measure Flow, Pressure, Temperature, and Level, but also other parameters such as pH, conductivity, thermal dispersion, turbidity, and water chemistry. Finding the right instrument can be a daunting task with information overload.

Let Apex's talented team of sales engineers help you accurately size, select, and specify the instruments you'll need to stay running longer.

Instrumentation Applications:

- Food Manufacturing
- Dairy Industry
- Pet/Animal Foods
- Water/Wastewater Treatment
- Boiler House
- Power Plants
- Nuclear Industry
- District Heating & Cooling
- Confectionery
- Oil & Gas Industry
- Paper Industry
- Plastic Industry
- Cement/Aggregates
- Feed/Grain Processing
- Indoor Air Quality
- Agriculture
- Pharmaceutical/Laboratories
- Silos
- And More

VALVES & ACTUATORS

Valves are incredibly versatile devices that regulate, direct, and control the flow of a variety of media. Actuators allow you to control valves remotely.

Valves and Actuators are found just about everywhere you go. Our automation experts will help you select the best valve and actuator for your application. Valve sizing sheets, capacity charts, torque tables, and shut off tables are all part of what we do every day. Your automated package from Apex will work the moment you install it and will be backed by our commitment to customer service.

Valve & Actuator Applications:

- Irrigation/Water Treatment
- Wastewater Treatment
- Plumbing
- Boilers/Water Heaters
- Laundry Facilities
- HVAC Facilities
- Mining
- Power Generation
- Oil/Gas/Petroleum
- Food Manufacturing
- Chemical/Plastic Manufacturing
- And More

Ball Valves
Actuated Ball Valves

Butterfly Valves
Actuated Butterfly Valves

Control Valves
Actuated Control Valves

Check Valves

Gate/Globe/Check Valves
Forged Steel & Cast Steel

HVAC Valves

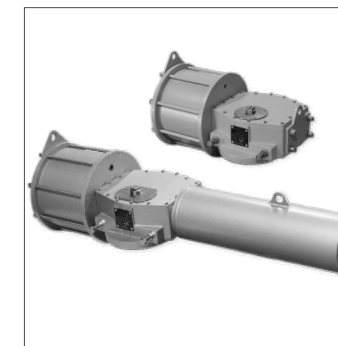

Specialty Valves
Choke, Plug, Needle, Safety, Gate, Toggle Valves & More

Mounting Brackets & Couplers

Valve Accessories
Controllers, Levers & Operators, Strainers, Diffusers, Shut-Offs, And More

Actuator Accessories
Limit Switches, Positioners, Solenoids, Air Filter Regulators, And More

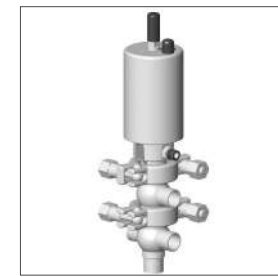

SANITARY & HIGH PURITY EQUIPMENT

Sanitary and high purity equipment are necessary to keep your customers safe and keep their trust in your brand.

Your business is making food, our business is protecting your process. Apex sells 3A sanitary and High Purity fittings, hoses, valves, and instrumentation. Our full line of Sanitary process equipment will keep your plant running longer, with less interruptions, and longer cycles between maintenance.

Sanitary & High Purity Equipment Applications:

- Breweries
- Distilleries
- Food Processing
- Beverage Processing
- Baby Foods
- Cosmetics
- Pharmaceuticals
- Pet/Animal Foods
- Cleaning Products

Divert Valves

Mix-Proof Valves

Isolation Valves

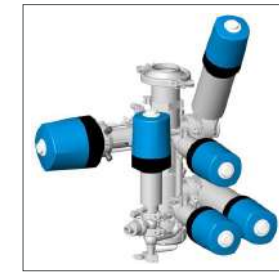

Regulating Valves

Sampling Valves

Mix-Proof Clusters

Pigging Stations

Vacuum & Air Relief

Tank Bottom Valves

Control Tops

Heat Exchangers

Sanitary Pumps

Pressure Transmitters

Sanitary Spray Nozzles

Sight Glasses

Sanitary Hoses

Piping & Tubing

Swagelok-Style Compression Fittings

High Purity VCR Fittings

Pipe Fittings

Sanitary Clamps

Klean-In-Place II Rotary Valves

Inline Pneumatic Convey Magnets

Sanitary Magnets

DRY BULK MATERIAL HANDLING

Dry Bulk Material Handling can be a complicated and dangerous process. Apex has the solutions you need to make your plant efficient and safe for your employees.

Unlike liquid or gas handling, dry bulk materials can result in significant problems if not handled properly. Apex has a team of experts that can evaluate your current process and offer improvements to eliminate any build-ups, potential explosion causes, and contamination.

Dry Bulk Material Handling Applications:

- Aggregates
- Agriculture
- Biomass
- Cement
- Chemical Processing
- Dairy Plants
- Food Processing
- Mineral Mining
- Paper Industry
- Pet/Animal Food
- Pharmaceutical
- Plastics
- Textiles
- Waste-to-Energy

Bulk Bag Loaders & Unloaders

Pneumatic Conveying Systems

Explosion Audits and Safety Training

ROTARY VALVE AUDITS

Are you left wondering how well your valves are performing? Apex can conduct a full audit report on every rotary valve in your plant.

You will receive a report on your valves' performances and any recommendations we may have. This report also includes any improvements that can be made to your plant that may help reduce downtime and increase efficiency.

Apex can also provide special tagging for easy maintenance and replacement.

MAGNET AUDITS

Magnets can and do wear out. It's critical that you get your magnets regularly tested to verify they are doing their job of keeping your process as pure as possible. Annual audits are recommended.

When you choose Apex to perform your Magnet Audit, you will receive a full, detailed performance report that explains how well all your magnets are performing along with our recommendations.

We will even perform your first magnet audit for **free!**

EXPLOSION AUDITS (NFPA COMPLIANCE)

At Apex, our goal is to ensure your plant is as safe as possible while preventing process downtime.

When you schedule your Explosion Audit, our knowledgeable employees will perform a hazard assessment of your plant.

You will receive a report that identifies any factors in your plant that may contribute to an explosion. You will also receive a compiled list of explosion prevention equipment that will increase the safety of your plant.

Call to Schedule Your Plant Audit Today! 763-777-9525
