# BOILERS, STEAM, & CONDENSATE

Boilers and steam systems are at the heart of what you do. They are a critical utility which needs to be professionally designed to optimize your energy consumption. Apex will help you maximize your efficiency with the industry's best products.

### APPLICATIONS

- Boiler Rooms
- Hospitals
- Breweries
- Distilleries
- Laundry Facilities
- Chemical Processing
- Textile Manufacturing
- Food Processing
- Beverage Processing
- Universities & Schools

### SERVICES

- Selection and equipment sizing
- Maximize energy efficiency
- Cleaning and servicing
- Steam trap audits

### BRANDS

### APEX STEAM SPECIALIST

**TODD FAUST**  
OUTSIDE SALES ENGINEER  
STEAM SPECIALIST

**BOILERS**  
Modular Boilers  
Steam Generators

**HEAT EXCHANGERS**  
Plate & Frame Heat Exchangers  
Shell & Tube Heat Exchangers

**HOT WATER HEATERS**  
Heat Misers

**DA AND SURGE TANKS**

**STEAM & WATER COILS**

**ELECTRIC CONDENSATE PUMPS**

**ECONOMIZERS**

**PRVS**  
Pressure Reducing Valves

**STEAM TRAPS**  
Steam Trap Audits

**PRESSURE MOTIVE CONDENSATE PUMPS**

**SAFETY VALVES**

**LIQUID DRAINERS**

**CONTROL VALVES**

**ACTUATED VALVES**

**INSTRUMENTATION**  
Flow, Pressure, Temperature, & Level Measurement

**PROCESS CONTROLLERS**

# INSTRUMENTATION

You can't manage what you don't measure!  
Instruments are your plant's way of capturing data.

Apex carries high quality instrumentation from today's leading brands to deliver you reliability and accuracy. Let our talented team of sales engineers help you accurately select the instruments you need to keep you up and running.

### APPLICATIONS

- Food Manufacturing
- Dairy Industry
- Pet/Animal Foods
- Water/Wastewater Treatment
- Boiler House
- Power Plants
- Nuclear Industry
- District Heating & Cooling
- Confectionery
- Oil & Gas Industry
- Paper Industry
- Plastic Industry
- Cement/Aggregates
- Feed/Grain Processing
- Indoor Air Quality
- Agriculture
- Pharmaceutical/Laboratories
- Silos
- And More

# VALVES & ACTUATORS

Valves and Actuators can be found just about everywhere you go. The Apex experts will help you select the best valves and actuators for your application.

Your automated package from Apex will work the moment you install is and will be backed by our commitment to customer service.

### APPLICATIONS

- Irrigation/Water Treatment
- Wastewater Treatment
- Plumbing
- Boilers/Water Heaters
- Laundry Facilities
- HVAC Facilities
- Mining
- Power Generation
- Oil/Gas/Petroleum
- Food Manufacturing
- Chemical/Plastic Manufacturing
- And More

### SERVICES

- Selection and equipment sizing
- Tagging and labeling

### BRANDS

# SANITARY & HIGH PURITY

Your business is making food, our business is protecting your process. Sanitary and high purity equipment are necessary to keep your customers safe and to keep their trust in your brand.

Apex offers 3A sanitary and high purity fittings, hoses, valves, and instrumentation. Keep your process equipment running longer with less maintenance.

### APPLICATIONS

- Breweries
- Distilleries
- Food Processing
- Beverage Processing
- Baby Foods
- Cosmetics
- Pharmaceuticals
- Pet/Animal Foods
- Cleaning Products

# DRY BULK MATERIAL HANDLING

Dry bulk material handling can be a complicated and dangerous process. Apex has the solutions you need to make your plant efficient and safe for your employees.

Our team of experts can evaluate your current process and offer improvements to eliminate any build-ups, potential explosion causes, and contamination.

### APPLICATIONS

- Aggregates
- Agriculture
- Biomass
- Cement
- Chemical Processing
- Dairy Plants
- Food Processing
- Mineral Mining
- Paper Industry
- Pet/Animal Food
- Pharmaceutical
- Plastics
- Textiles
- Waste-to-Energy

### BRANDS

**TURN-KEY SYSTEMS AVAILABLE!**  
Our team can engineer complete material handling systems.

## EXPLOSION PROTECTION

When a combustible material, an ignition source and atmospheric oxygen collide in a confined space, the result is an explosion. Preventative explosion safety measures aim to stop this potentially lethal mixture from occurring. Industrial plants must always be protected against the consequences of explosions to ensure that employees are safe and production can be resumed quickly. After all, every hour of lost production costs money. In most cases, explosion safety can be provided cost-effectively through explosion venting and explosion suppression.

[www.ApexSolutionsMN.com](http://www.ApexSolutionsMN.com)

"Apex specializes in supplying top-tier industrial engineered equipment tailored for various industries including food manufacturing, mechanical contracting, agriculture, and OEMs. Our comprehensive product range covers boilers, steam systems, heat exchangers, valves, actuators, piping, instrumentation, sanitary and high-purity process equipment, as well as dry bulk material handling and explosion protection.

Based in the USA, we pride ourselves on offering high-quality equipment stocked in our 10,000ft<sup>2</sup> warehouse in Monticello, MN. With a team of 13 members boasting a collective experience of over 140 years, we stand as a reliable and accessible partner committed to simplifying your job.

At Apex, we leverage our engineering expertise to enhance your operations by boosting uptime, optimizing energy efficiency, and delivering immediate service. Our goal is to keep your projects on track, ensuring smooth and timely execution while staying within budget. Let us guide you to solutions that elevate your plant's performance and project success."
